

Swing Door Motor

For Office & Residential Door

SP SWD 200

Standard Accessories

Applications

- Office
- Residence
- Old Age Home
- Hospitals

Features

AUTO Swing Door Operators are mainly used in commercial & residential building, due to its simplicity and convenience.

It is mainly used in Boss Chamber, where he wants to control the entry door with Remote Control. When the Boss unlock the door, the Door opens automatically by sensing visitor movement through motion sensor and closes automatically.

It is also used in Hospitals for movement of wheel chair and trolleys.
